### **International Association of Sound and Audiovisual Archives (IASA) 46th Annual Conference Bibliothèque nationale de France, Paris, France, 27 Sept - 1 Oct 2015**

*IASA conferences give your business unprecedented access to the world's major sound and audiovisual institutions.*

This year IASA will bring together an impressive range of world class expertise, knowledge and experience and so continue its aim to promote, encourage and support the development of best professional sound and audiovisual standards and practice in all countries.

IASA is an accepted international leader in the field of sound and audiovisual archiving and the premiere organization in setting operating standards and work practices. It has also had a long commitment to the support of archives and collections in developing and emerging countries.

Established in 1969 as a platform for international co-operation between archives that preserve recorded sound and audiovisual documents, IASA now has members from more than 70 countries, representing most major collections and archives, including national libraries, archives and broadcasters holding musical recordings, historic, literary, folkloric and ethnological sound documents, theatre productions and oral history interviews, bioacoustics, environmental and medical sounds, linguistic and dialect recordings, as well as recordings for forensic purposes.

The IASA conference is an agenda setter for the ongoing debates in sound and audiovisual archiving. Our most recent conferences include the informative and spectacular 2012 conference in New Delhi, India, our thought-provoking and celebratory 2013 joint conference with the BAAC (Baltic Audiovisual Archival Council) in Vilnius, Lithuania, and the most recently enlightening 2014 conference in Cape Town, South Africa.

The 2015 Conference, our 46th Annual Conference, is being held at the Bibliothèque nationale de France, in Paris, France, from Sunday 27 - Thursday 1 October 2015 with the theme "All for One -- One for All: Common Concerns -- Shared Solutions". This 2015 conference is an opportunity to show how new technologies, new systems, and joined efforts provide innovative services that link our audiovisual heritage with a wider audience, make possible new and diverse use cases, and affect more robust and resilient preservation efforts.

Sponsors of IASA achieve high visibility amongst the attendees of the conference and the members of this forward-thinking organization. But this is not the only benefit: support for IASA not only gains an opportunity for your company, it also helps us with our initiatives in the world of sound and audiovisual archiving, contributes to the maintenance our education, training and other standards and guidance activities, and ensures that it remains affordable to participate in IASA--cost being an all too critical issue in today's global economy.
